

HEART and HOME PROBLEMS

MRS. ELIZABETH THOMPSON

Dear Mrs. Thompson: (1) Please give me a recipe for fruit salad. Also for potato salad with mayonnaise dressing.

(2) I am 21 years of age; have gone with different fellows, not liking any of them. I met a fellow not long ago and I love him better than any of the rest of the fellows. I would give anything if I could go with him. How could I tell him that I would like to keep company with him, as he is a respectable boy?

MORNING GLORY.

(1) Fruit Salad—You can make a fruit salad by cutting orange, pineapple and bananas in small pieces and mixing. Can add a little cut celery, cherries or other desired fruit. Serve on lettuce leaf with mayonnaise dressing.

Fruit Gelatine Salad—Soak box of gelatine in pint of cold water a few moments, then add cold boiling water and one and one-half pints granulated sugar. When dissolved, flavor with juice of three lemons and strain into mould. Before it begins to stiffen add four oranges cut in small pieces (two rind or white part), one-half pound Malaga grapes cut in halves, one-half pound English walnut kernels halved, one-half teaspoon diced pineapple. Serve with mayonnaise mixed with whipped cream. Let salad set firm on ice before turning out of mould.

Potato Salad—Dice six large cold boiled potatoes. Cut one large onion in small pieces. Pour thin slices of bacon. Mix bacon gravy with one tablespoonful olive oil. Stir all together with salt and pepper to taste. Garnish with hard-boiled eggs.

Mayonnaise (boiled)—Yolks four eggs, one-half cup cream or milk, one-half cup sugar, salt and pepper to taste. Add a little bit of dry mustard, a pinch of cayenne pepper and boil. Then add three-quarters pint good vinegar and lump of butter size of egg. Thin with whipped cream when serving. Will keep a week in cool place.

(2) You can't tell him, my dear, and keep his respect. All advances must come from him, otherwise he will think you are cheap and will not care for you in the right way. Just be nice and pleasant and good to look at, and he may sit up and take notice.

Dear Mrs. Thompson: Will you please give me a recipe for goulash? Thank you.

A FRIEND.

Hungarian Goulash—Select two pounds beef from a cut that has some fat. Cut meat into pieces about three inches square and wash well, but do not wipe.

Put good sized piece of suet in saucepan and let it fry out good—do not burn. When rendered, remove scraps and put meat (still dripping with water) into hot fat. Be careful the fat doesn't splutter and burn you. Add no more water under any circumstances and let meat cook slowly an hour. At the end of half an hour slice into meat a medium sized onion, in another half hour add a can of tomatoes and cook 20 minutes longer. Season with salt and paprika and a little powdered clove if you like it.

Dear Mrs. Thompson: (1) Will you please tell me what to trim a black crepe de chine dress with for a girl of 16 with light hair?

(2) Are baby doll pumps going to be worn this summer?

(3) What will take hair from the face?

(4) Are ice cream and cake nice to serve at a birthday party?

GREEN EYES.

(1) This would be pretty with a little blue silk vest and a sash of the silk. The sleeves could be banded with the silk, or sleeves and neck could be edged with narrow lace. The skirt drapery could be held with buttons or rosettes of the blue silk.

(2) I am afraid these have gone out. Everything is called "Tango" now.

(3) Nothing but the electric needle, and even that fails sometimes. Peroxide will bleach the hair so it will not show so much, but it also is harmful to the skin.

(4) Very nice.

DISCUSS PLAYGROUNDS.

A largely attended meeting of the Tri-city Social Service club was held last evening at the rest rooms in Moline when the subject of city playgrounds was discussed. Supper was served at 6:45 o'clock, and following, a program of talks was given, the president, Rev. I. O. Nothstein, introducing the speakers with a few remarks on the general subject. Rev. J. W. Cooper of Davenport, who has entered the race for congress and is interested in philanthropic movements in the tri-cities, spoke of playgrounds as an educational, rather than a charitable movement. He maintains that the playgrounds should be under the supervision of the public schools and unless they are properly supervised, lose much of their mission. Professor Adolf Oppenheimer, supervisor of physical training in the Moline public schools, spoke of the system that has been adopted in Moline. The playgrounds of Moline are splendidly supervised and would be a credit to a city with twice the population of that city. He said that it was necessary not only to have a playground for the smaller children but that there should also be a playground for the older boys where they may play rougher games without danger to the younger children. He also maintains that there should be strict supervision of every playground and unless there is the object is defeated.

The standing committees for the year were appointed. Miss Dina Ramser at the previous meeting was made secretary and treasurer, this office, however, was divided last evening and Miss Edna Flanagan was appointed treasurer and Miss Ramser secretary. Members of the program committee are: R. C. Smedley and Miss Ramser of Rock Island; Dr. E. C. Norman and Mrs. Josephine Barnhardt of Moline; Miss Clara L. Crain and Miss Jeanette McFarquhar of Davenport; and Miss Lillian Owens of East Moline. Rooms and hospitality: Mrs. C. T. Dugard and Miss Georgia Turnbull, Rock Island; Miss Sarah Adolphson and Mrs. E. J. Braddock of Moline, and Mrs. William Berger and Miss Julia Secomb of Davenport. Publicity: Miss Dina Ramser of Rock Island; Miss Penelope Brown, Davenport, and Dr. E. C. Norman of Moline.

The members of the club feel much encouraged in its success since reorganization and are well pleased with the interest manifest. The object of the association as stated in the constitution is the promotion of personal acquaintance, the reading of papers, the discussion of subjects relating to the work of its members and the cultivation in the community of more general interest in the betterment of social living conditions. Any one interested in philanthropic or educational work in the tri-cities or community is invited to attend meetings and become members.

The June meeting will probably be a picnic to be held in Davenport, but definite plans have not been made as yet.

HOUSEHOLD HINTS

THINGS WORTH KNOWING.
If sausages are rolled in flour before fried, it will prevent them breaking and also improve the flavor.

To restore dingy towels to whiteness put them in a boiler of cold water, add white soap shavings and lemon juice and let them come to a boil. Rinse in tepid water, then in blue water. Hang in the sun to dry.

To give better flavor to canned fruit, likewise to stewed, add lemon juice in proportion of the juice of one lemon to one pound of fruit.

To prevent sliced fruit for dessert, or fruit salad, turning dark sprinkle lemon juice over it.

To drive a nail through a plaster wall without injury to the wall, dip in hot water first. This will prevent it from breaking away the wall.

THE TABLE.

Brown Potato Soup—Heat one tablespoonful of butter and brown carefully in three tablespoonfuls of sifted flour. Then add one and a half quarts of cold water, a good teaspoonful of salt and two medium sized potatoes peeled and sliced thin. Cook until the potatoes are thoroughly done. The whole process will take three-quarters of an hour. It is quite a task to brown the flour evenly and sufficiently, but not difficult if a thick frying pan is used and the flour stirred constantly. Adding cold water to the flour and butter insures lack of lumps in the soup. Neither this nor any brown gravy need be

cold water, one pint of milk, one-half onion, three tablespoonfuls of flour, one and one-half teaspoonfuls of salt, one-eighth teaspoonful of pepper, two-inch cube of fat salt pork. Pick over peas and soak several hours, drain, add the cold water, pork and the onion. Simmer three or four hours, or until soft; rub through a sieve. Add the butter, salt and pepper. Dilute with the milk, adding more if necessary. The water in which a ham has been cooked may be used; in such a case omit the salt.

MOST SICKNESS COMES FROM WEAK, INACTIVE KIDNEYS

Recent Reports Show Hundreds Suffer With Kidney Troubles And Don't Know It.

There are scores of nervous, tired, run-down people throughout the country, suffering pains in the back and sides, dizzy spells, weakness of the bladder (frequently causing annoyance at night), who fail to realize the seriousness of their troubles until such conditions as chronic rheumatism, bladder troubles, dropsy, diabetes or even Bright's disease result.

All this is due to weak, inactive kidneys. The kidneys are the filters of the blood, and no one can be well and healthy unless the kidneys work properly. It is even more important than that the bowels move regularly.

If you suffer with such symptoms, don't neglect yourself another day and run the risk of serious complications. Secure an original package of the new discovery, Croxone, which costs but a trifle, and commence its use at once. When you have taken a few doses, you will be surprised how differently you will feel.

Croxone overcomes the worst case of kidney, bladder trouble, and rheumatism, because it removes the cause. It cleans out the kidneys, and makes them filter out all the poisonous waste matter and uric acid, that lodge in the joints and muscles, causing rheumatism; soothes and heals the bladder, and quickly relieves you of all your misery.
